

5200 Extra Large Tablet Combo Product Specification

FRAME: Legs are 1 ¼” heavy-duty 16 gauge tubing – two gauges stronger than competition. Gas shield metal arc welding ensures greatest strength. Additional brace extends from desk top frame to the back of the chair to provide a *full length support* for the extra large tablet.

SEAT and BACK: The frame is contoured to fit the shape of the 5/8” Melsur™* solid seat. Solid plastic is stain/wear resistant and self-extinguishing. The seats and backs are attached with steel rivets underneath the plastic resulting in no exposed hardware on the surface. The Melsur™ seat has a waterfall edge to improve seating comfort.

TABLET TOP: Top is oversized 20” x 36” Melsur™ 5/8” solid plastic tablet with beveled “Ergo Edge” for comfortable seating. An oversized pencil groove is included.

METAL FINISH: Bright nickel chrome plating meets all present requirements for noncorrosive and abrasion resistant finishes.

GLIDES: High shoulder glides with an internal gripper spring. Glides are 1 ¼” diameter and a 40 degree full-swivel with a ½” shoulder. Metal glides are optional.

HEIGHTS: Fixed 17 ½”.

* World’s leading manufacturer of solid plastic desktops and seats.
