

## 9400 Extra Large Tablet Combo with Book Basket Product Specification

**FRAME:** Large Melsur™ (14" x19" x 26") solid plastic tablet top is supported by a one inch tube welded to the front edge of the frame and a 1" diameter brace welded to the chair.

**SEAT and BACK:** The frame is contoured to fit the shape of the 5/8" Melsur™\* solid seat. Melsur plastic is stain/wear resistant and self-extinguishing. The seats and backs are attached with steel rivets underneath the plastic resulting in no exposed hardware on the surface. The Melsur™ seat has a waterfall edge to improve seating comfort.

**BOOKRACK:** "13 x 17" bookrack is made with 1/2" diameter solid steel side rails and 5/16" wire cross members welded together and to the chair using gas shield metal arc welding. A solid 1/2" steel rod extends across the back legs in an inverted "V" to help contain books and discourage use as a foot rest.

**METAL FINISH:** Bright nickel chrome plating meets all present requirements for non-corrosive and abrasion resistant finishes.

**GLIDES:** High shoulder nylon glides with an internal gripper spring. Glides are 1 1/4" diameter and a 40 degree full-swivel with a 1/2" shoulder. Metal glides are optional.

**HEIGHTS:** 15 1/2", 17 1/2".
