Overview :

Heavy duty and static free, high-density polypropylene material with a light grain texture surface on both sides, injection molded into a one-piece shell with waterfall edge. Molded in a Ribless back design for comfort and flexibility. The ergonomically designed opening in the shell back provides added comfort as well as a handle grip. The shell is attached to the frame with steel rivets underneath the seat, which offers no exposed hardware on the surface.

The Frame legs formed of 14-gauge, 1 1/8" full-tube steel. Each leg set (front and back) made of one tube running side to side of the seat mounted to 14ga steel brackets. Heavy duty rubber casters are inserted securely into steel leg.

Available Heights: 14, 16, 18" XL

Available Options: Flat Bookrack, Seat Pad
